

Child Find Policy

Our school is committed to complying with all federal and state requirements regarding Child Find. We conduct activities to identify, locate, and evaluate students who may need special education or related services. Parents and guardians have the right to review their child's records and refuse the release of information unless otherwise required by law.

We are dedicated to ensuring that all children within our community are properly supported. If you believe your child may benefit from an evaluation or have any concerns about their educational needs, please do not hesitate to reach out to us for assistance.

If you have any questions or need more information, please contact us directly.
